August 3, 2020,

Greetings Country Club Hills School District 160 Family:

Our Board of Education has approved our plan to Reopen Schools Remotely for the Fall of 2020. Our plan is called Elevated Live Stream Education. We are all aware that preparing for school this fall has eccentric barriers. We will continue to monitor, adjust, and assess our framework to determine when we are able to move to our Hybrid model as a next step. We understand that many school districts have different plans however our main priority is what is best for school district 160 students. We are all in this together, in wanting nothing more than to maintain optimal health and safety for all of our students and staff. I would like to remind parents to continue to register your students as soon as possible, so that we are able to appropriately prepare for student learning. Please visit our new website for the most updated information. If you have any additional questions or concerns please contact the district office via email @ District@cch160.org

Health and Happiness,

Dr. Duane Meighan
Superintendent of Schools
